Allergy Catering

Here at Hunters Catering we specialize in catering for our customers who have food allergies. Whether it is being intolerant or fully allergic we are able to safely cater for you.

All we need to know is what your allergy is and then we can build a menu to your specifications.

All current menus can be modified to suit allergy catering but we can cater for everyone to have the dedicated allergy menu or we can do it for a certain number of people. It is up to you.
